

# COMPANY PROFILE

## 2020

MFM Welding and Boilermakers (Pty) Ltd is a leading welding company with a strong commitment to delivering high-class services. With a vision to set new industry standards and a mission to provide flexible, cost-effective, and integrated engineering solutions, we have successfully completed projects across various countries in Africa.

## About Our **Company**

MFM Welding and Boilermakers (Pty) Ltd is a leading industrial engineering company that specializes in providing high-class engineering services to clients in various sectors.

With a strong focus on adopting industrial engineering methodologies and adhering to international and local codes and standards, we deliver superior, flexible, cost-effective, and integrated engineering solutions. Our extensive project portfolio spans across Botswana, Swaziland, Tanzania, Zambia, Nigeria, Uganda, and South Africa, where we have successfully executed numerous projects. Our commitment to quality, innovation, and client satisfaction has earned us a reputation as a reliable partner in the industry.

### **Mission:**

Our mission is to contribute to the growth and success of our clients by providing top-notch welding and fabrication services. We achieve this by employing the latest design and construction techniques, ensuring compliance with international and local codes and standards. Our team is committed to delivering superior value, flexibility, and cost-effectiveness, making us the preferred choice for engineering solutions across various sectors.

### **Vision:**

At MFM Welding and Boilermakers, our vision is to be a leading provider of industrial engineering services, delivering excellence to all our potential clients. We strive to set new industry standards through our innovative solutions, meticulous workmanship, and dedication to achieving the highest level of client satisfaction.

# Our Team

At MFM Welding and Boilermakers

our team is our greatest asset. We have assembled a group of highly skilled and experienced professionals who are passionate about their work and committed to delivering exceptional results. Our team includes engineers, welders, boilermakers, project managers, and support staff, all working together to ensure the success of our projects and the satisfaction of our clients.

## 01.

### Quality Assurance

Quality is at the heart of everything we do. MFM Welding and Boilermakers have implemented stringent quality control measures to ensure that every project meets the highest standards. We source materials from reputable suppliers, use advanced engineering techniques, and conduct thorough inspections at each stage of the project. This commitment to quality has earned us the trust and confidence of our clients.

---

## 02.

### Safety and Sustainability

Safety is a core value that underpins all our operations. We prioritize the well-being of our employees, contractors, clients, and the communities we work in. Our safety protocols and practices are aligned with international standards, and we continually invest in training and equipment to ensure a safe working environment.

# Our Services

Our team of professionals brings together a wealth of expertise and knowledge, enabling us to tackle diverse projects across different regions. Our extensive experience in handling complex engineering challenges sets us apart as a reliable and competent service provider.

## Pipe Fitting

Our team of experienced professionals excels in providing reliable and high-quality pipe fitting services. We ensure that all our pipe fitting projects adhere to the highest industry standards and are completed efficiently to meet our clients' needs.

## Boilermaking

We take pride in delivering robust and exceptional steelwork through our boilermaking services. Our skilled boilermakers are equipped to handle various projects, whether it's fabrication, repair, or maintenance, ensuring top-of-the-line engineering work.

## Plant Upgrades

We understand the importance of keeping industrial plants operating at peak performance. Our expertise lies in providing plant upgrade solutions, which help our clients maintain and elevate their facilities to meet expected standards of excellence.

### A. Power Plant Refurbishment

We undertake the refurbishment of a power plant, upgrading its equipment and systems to enhance efficiency and reliability.

### B. Oil and Gas Pipeline Installation:

Our team can successfully install a complex oil and gas pipeline network, adhering to strict safety and environmental standards.

Our team of professionals, dedication to quality, and commitment to safety and sustainability have established us as a trusted partner in the industry. Whether it's pipe fitting, boilermaking, or plant upgrades, we pride ourselves on delivering reliable and top-of-the-line engineering work to meet the needs of our valued clients.
